Growth & Strategy

In the domestic selective welfare market, there is a growing trend towards the adoption of a 'Selective Welfare System,' allowing individuals to choose welfare items based on their lifestyle preferences. The market size is anticipated to maintain a robust growth trajectory, averaging an annual rate of 10% over the past 5 years, surpassing the expected future economic growth rate of 7% to 8%

▼ The Size and Prospects of the Selective Welfare Market ▼ Adoption Rate of Welfare Point Adoption

(Source: HYUNDAI EZWEL estimates, Based on the top three companies)

In the current selective welfare market, the primary focus has been on operating price-oriented sales channels and securing orders from new clients. Looking ahead, key success factors will involve minimizing churn among contracted clients, increasing individual payment amounts, and diversifying content offerings.

We will enhance EZWEL's specialized content and product capabilities while reinforcing existing business strengths through the promotion of synergy among group affiliates.

Enhancement of specialized content and product power	· Welfare Mall's first live commerce activation · Strengthening megatrends (single-person households, pats, etc.) and travel products · Enhancement of the luxury specialty center, establishment of total golf service, etc.			
Next Generation System Promotion	· Establishment of next-generation welfare mall (target to launch in the second half of 2023 ~ August 2025) · UI/UX and System Integration			
Promote Group Affiliates Synergy	· Promotion of synergy by utilizing the product power of HYUNDAI Department Store Group affiliates, including Department stores/Informercial/Green Food/Handsome/Zinus			

To diversify our business portfolio and secure new growth engines, we are actively promoting the 'Corporate Welfare BPO' project and the 'Meal Welfare (mobile meal ticket)' project. These initiatives involve outsourcing various general affairs tasks to further enhance our service offerings.

▼ Corporate Benefits BPO Business Expansion

- Promote total corporate welfare BPO business that outsources various general affairs as well as 'Welfare Mall' of the nature of e-commerce
- In the mid-to-long term, in addition to expanding the service category of the business, consider broadening the business scope to include 'In-house Welfare Groupware,' overseeing the operation of the company's in-house welfare system

▼ Entered into the meal welfare (mobile meal ticket) business

- Mobile dining rights that emerged in 2014 continued to grow at a high rate of more than 20% even during the coronavirus situation
After taking over the management rights of 'Vendys', the leading and largest operator in the market, entered the meal service business
- Through this, we plan to create synergies between the two companies, such as scale expansion and content enhancement, and grow them into new growth engines for the future.

· Company Name: Vendys Co., Ltd. / Brand Name: Meal Ticket Boss **식권대장**

Scale Expansion	· EZWEL ↔ Vendys collaboration on client order
